

# The only **CLEAR** choice...

## ...for aesthetics.

The unparalleled transparency of Inspire ICE makes them the most discreet braces available, regardless of tooth color. Plus, they won't stain or discolor over time, so you'll look great throughout your treatment.

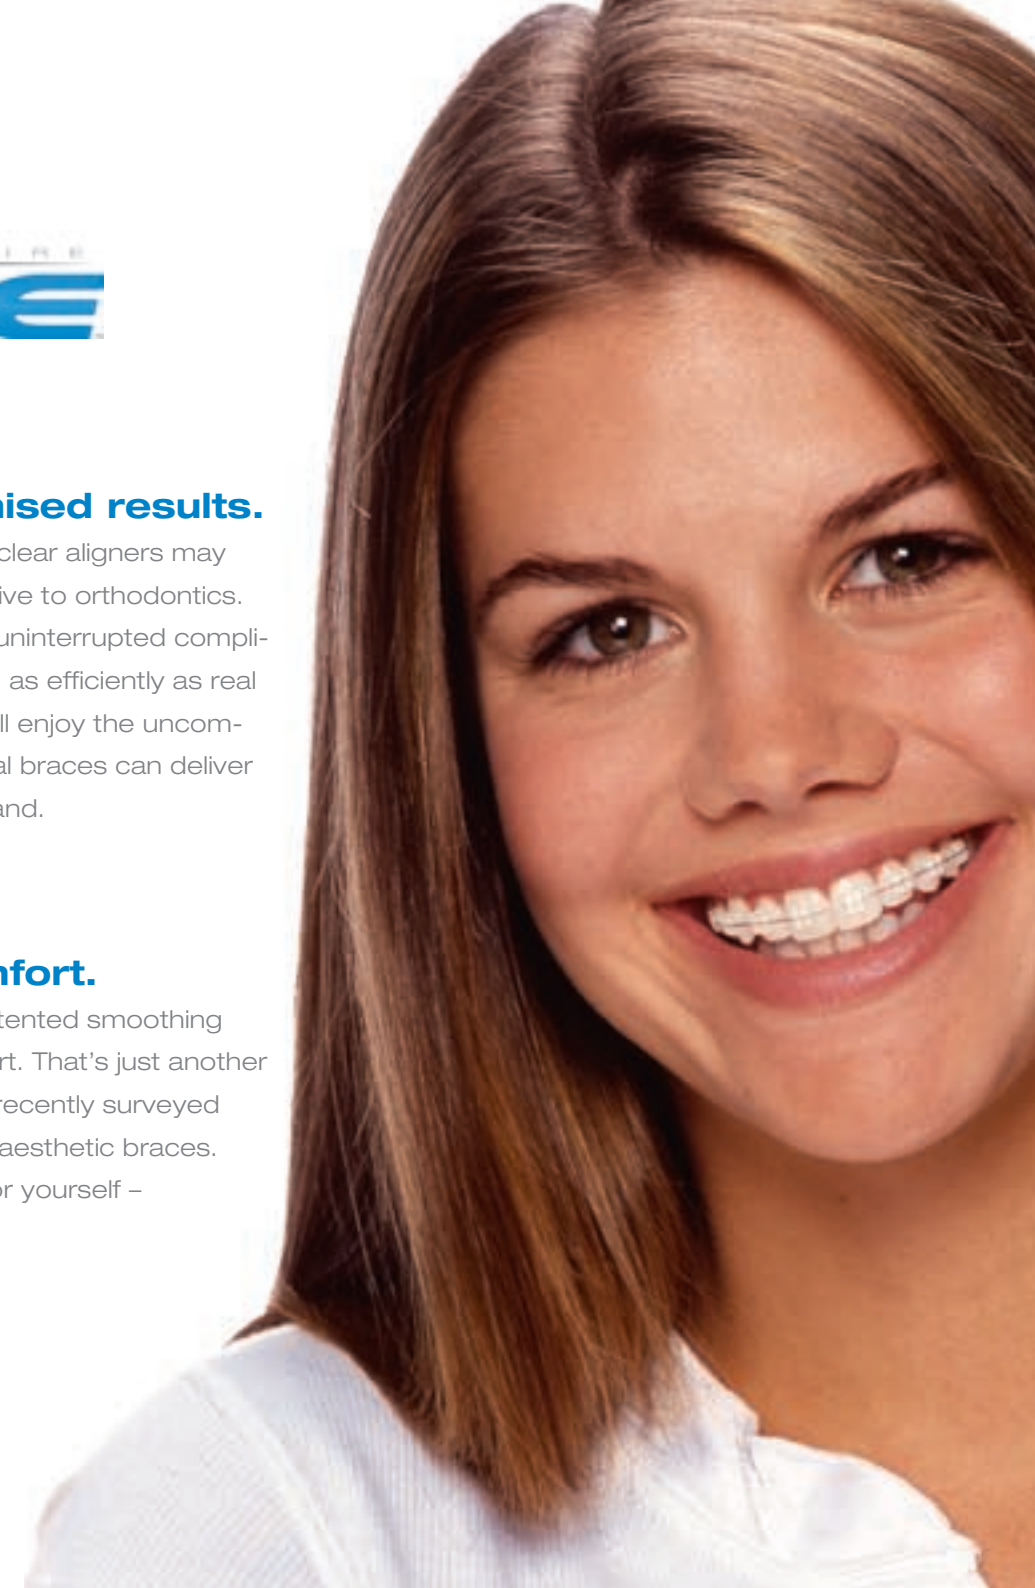

## ...for uncompromised results.

Some advertised removable clear aligners may seem like a tempting alternative to orthodontics. However, clear trays require uninterrupted compliance, and do not move teeth as efficiently as real braces. With Inspire ICE, you'll enjoy the uncompromised results that only real braces can deliver with the aesthetics you demand.

## ...for comfort.

Inspire ICE is made with a patented smoothing process for maximum comfort. That's just another reason why 96% of patients recently surveyed chose Inspire ICE over other aesthetic braces. Make the only clear choice for yourself – choose Inspire ICE.

We're proud to offer our patients **Inspire ICE™**, the highest-quality aesthetic braces on the market. Their patented sapphire material makes Inspire ICE the only crystal-clear braces available. They're not only discreet, they're virtually invisible.

CLEAR BRACES

"Make the only clear choice. Ask your orthodontist about **Inspire ICE™** clear braces today!"

**...for children and adults.**

It's never too late to have the smile you've always wanted. Braces can move teeth at any age to achieve a beautiful result that's youthful and dynamic. What's more, Inspire ICE braces are the only crystal-clear braces on the market, so they won't interfere with your busy and active lifestyle.
